GED GET IT! 5 Reasons to Earn Your GED

SELF ESTEEM

There is a sense of accomplishment that comes with getting your GED.

MONEY

According to the Kid Source Website, studies show that those who did not get their high school education will earn \$200,000 less than those who did obtain a high school education.

FREEDOM

Statistics show that half of the prison population is made up of high school dropouts, according to a 2009 study conducted at Northeastern University. By getting a GED and completing your high school education, you are increasing your chances of living a crime-free life.

SETTING AN EXAMPLE

Having a GED may set an example for your children.

INDEPENDENCE

Half of the heads of households on welfare did not earn their high school education, according to the Kid Source Website. The GED improves your chances of never having to depend on others for support.
